Testimonial from Terri Royse, Assured Relocation | January 13, 2020

I recently had the pleasure of working with Linda on an extremely sensitive, difficult temporary housing placement as a result of damage to a high net worth client's primary residence in Chicago. With these types of homeowner claims and placements, time is very often of the essence, and it is essential to provide rental housing options of like kind and quality to the policyholder. I had been unsuccessful in my own efforts, as well as the efforts of two other real estate agents, in locating suitable housing and/or negotiating terms that were mutually beneficial to the insurance company, the policyholder and the rental property owner. During my research, Linda's name came up over and over as a resource with extensive knowledge of the market; as such, I contacted her and she immediately put my mind at ease, both with her understanding of the type of housing product, as well as the unique situation at hand. Linda was able to meet personally with my client and reassure her that together, they would work to find comfortable accommodations. Making an immediate connection with my client, Linda worked tirelessly and selflessly to do just that. She went far above and beyond what most other real estate agents/brokers are inclined to do and made this process as seamless as possible for all parties involved. It is rare in my industry to find a real estate professional of Linda's caliber that I add to my limited network of high net worth/ultra high net worth vendors, and I consider her to be at the top of my list. Linda is a tremendous asset and resource.
